VOL. XVIII.

WE SHAKE AGAIN.

ANOTHER VISITATION OF THE
DREAD EARTHQUAKE.

CHARLESTON, October 22.—There was a
sharp earthquake shock here at 5:25 this morn-
ing. Its duration was about twelve seconds.
Houses were shaken and windows rattled, but
no damage done. The shock was sharp, but
not followed by several light quakes, as they are called there. Tele-
graphic advices state that the shock was felt at
Savannah, Augusta, Columbia, Orangeburg
and other points in this state. While a recurrence
of the quakes is trying to women and
children, it causes no interruption either in
business or work of repairing damages, which
are progressing vigorously.

SAVANNAH, October 22.—The shock was
felt here at 5:25 p. m. It was very perceptible
in the adjoining states, Georgia
and North Carolina. Special dispatches have
been received from all parts of this and neigh-
boring states indicating that seismic distur-
bances covered a larger area of country than
any previous shocks. In Charleston and at
other points in South Carolina, the shocks
were enough to shake buildings, bring down
houses by previous shocks, but no loss of life
is reported from any quarter, and no serious
damage to property.

The custom here was badly shaken,
the western wing of the building being
cracked and the walls supporting the roof on
the west wing falling slightly. The shock at
5:25 this afternoon, is said to have lasted thirty
seconds. At this time was correctly taken, the
shock moving north to south. The shocks
caused no interruption to business and al-
though people were disappointed by recurrence
of the disturbances, they hope that the worst
is over.

At Summerville, Columbia and Augusta
and at Blackville, a hundred miles from
Charleston, on the South Carolina railway,
shocks of earthquake were felt today.
The two considered the severest since Aug-
ust 31st.

CONTERATION IN COLUMBIA.
COLUMBIA, S. C., October 22.—[Special.]—
Such persons in Columbia, Summerville,
Charleston and elsewhere in South Carolina,
as had decided themselves with the flustering
action that the earthquake forces had ex-
hausted themselves and that henceforth im-
munity from shocks would be enjoyed, were
suddenly shaken out of that comfortable belief
this morning by a grim visitant that came
without premonition.

While the inhabitants of this city were
slumbering peacefully the earthquake, like
an invading foe, came in mighty power and
caused them to tremble with fear. Many per-
sons left their beds and rushed from their
bedrooms, while others, after the shock had
ceased, turned over and enjoyed another nap.
The disaster came at that witching hour of
night just before the day got shakes itself,
after its rest, and comes forth to
shed light upon the world. Houses
began shaking and walls began falling. The
force of the disturbance was decidedly greater
than that of any shock since the big quake. Plaster-
ing was thrown down in many houses, and
some chimneys tottered. In the large hall of
the agricultural department the force of the
shock was so strong that a large part of the
plastering fell from the ceiling. In the country
eastward of Columbia the shock is reported
to have been terrific. It was felt simultane-
ously in nearly all the parts of the state, at
precisely fifteen minutes past five o'clock.

In some places it was severer than others.
The material damage done is not great, but the
injury to people's nerves is considerable. This
last manifestation of the earth's eccentricity
quakes some of the pot scientific theories
and causes people to lose faith in the
assurances of scientists that no further shocks
would be felt. Indeed, it has put people on
their guard again and has stimulated their
apprehension that another and a worse attack
of earthquake may come at any time.

The whole town was so scared worse than
after the attack at 2:45 o'clock. The earth's
action was ferocious, and buildings were as
playthings for the unseen monster. The dura-
tion of the shock was at least half a minute.
Tonight the inhabitants of this city will not
get much sleep, because everybody appears to
have a presentiment of an impending calamity.

FOUR SHAKES AT GREENVILLE.
GREENVILLE, S. C., October 22.—Four shocks
of earthquake were felt here today—very
light at 2:30 a. m.; one severe at 5:25 a. m.;
another, even more severe, at 3:51 p. m.; and
the last, almost imperceptible, at 6:30 p. m.

WINTERSVILLE, S. C., October 22.—[Special.]—
Earthquake shocks were quite generally felt
by the people here this morning, at five
o'clock, and this evening at 2:50.

WILMINGTON, N. C., October 22.—Two dis-
tinct shocks of earthquake were felt here this
morning at 5 o'clock. One was quite severe
and shook houses and awakened a great many
people. There was another distinct shock this
afternoon at a quarter to three o'clock. Build-
ings shaken very perceptibly. No damage
done.

REMOVED FROM THE HOUSES.
ASHEVILLE, N. C., October 22.—[Special.]—
A night earthquake occurred here this morn-
ing at about 5 o'clock. This afternoon at 2:50
o'clock a more severe shock was felt. Many people
rushed from their houses into the street, and
the impression is general that it was as heavy
as that of the 21st of August.

SHAKING AT RALEIGH.
RALEIGH, N. C., October 22.—Two distinct
earthquake shocks were felt here today about
5 a. m. and 3 p. m.

THE SHOCK AT CHARLOTTE.
CHARLOTTE, October 22.—About 5 o'clock
this morning people were awakened by a sharp
earthquake shock and at 2:47 this evening
another shock occurred, sufficiently severe to
make people run out into the streets. No
damage done, but the people are alarmed.

CONTERATION IN WASHINGTON.
WASHINGTON, October 22.—A slight earth-
quake shock was felt here at 2:50 this
afternoon. The tremor lasted but an instant,
but was sufficiently strong to "put" type on
compositing stones in the fourth story of the
"Star" office. The shock was so distinct on
the floor of the state, and navy
building that some of the clerks became
alarmed and ran out into the corridor. On
the lower floors of the building, however,
no one seems to have noticed any unusual
disturbance.

The shock was felt at the signal office build-
ing at 2:50 o'clock, and slight tremors were
noticed by a seismoscope for a period of
fifteen minutes. The people were not perceptible
to the shock in the room. A pointer, who was at
work on the cross on the new steps of Assen-
sion church, at a height of one hundred and
twenty feet from the ground, says the steps
began to sway to and fro a few minutes before

3 o'clock today, and he is confident it was
caused by the earthquake.

CHATTANOOGA'S EARTHQUAKE.
CHATTANOOGA, Tenn., October 22.—A dis-
tinct shock of earthquake was felt here at
4:15 this morning. The earth oscillated
very perceptibly. Windows were shaken,
but it was so slight that it created no alarm.

THE RENAISSANCE AT LOUISVILLE.
LOUISVILLE, Ky., October 22.—A slight
shock of earthquake was felt here at 2:10 this
afternoon. It lasted five seconds, and the vi-
bration was nearly north and south.

BATTLING RICHMOND.
RICHMOND, October 22.—At 5:30 p. m. a shock
of earthquake was felt here, the oscillations
being east to west. The shock was mainly
felt in the upper part of houses. No damage
reported.

JACKSONVILLE, Fla., October 22.—A very
perceptible earthquake shock was felt in many
portions of this state at 4:30 a. m., standard
time. Light vibrations were felt here at 1:30
p. m. and 6:55 p. m.

AND UP IN OHIO.
COLUMBUS, O., October 22.—A slight shock
of earthquake was felt here—sharply at 5
o'clock. It was very perceptible in the upper
stories of buildings, but not on the streets.

THROUGHOUT GEORGIA.
SAVANNAH SEVERELY SHAKEN.
SAVANNAH, October 22.—Savannah was
visited by two decided earthquake shocks to-
day, the first at 4:35 a. m. local time. This
one was notable for the duration of the
tremors, which continued for 15 seconds. A
good deal of apprehension, but no general
panic, was caused by it. Many people, hotel
guests especially, got up and did not go back
to bed. At 2:30 o'clock this p. m. another
vibration, accompanied by a rumbling noise,
was felt. It was equally as severe as the first,
but much less duration. Many claim these
shocks were almost as severe as any that have
been experienced here excepting the great
shock of August 31st. They were felt every-
where in this section of the state, but no dam-
age is reported.

ATHENS SHOOK UP.
ATHENS, Ga., October 22.—[Special.]—This
afternoon at 2:50 o'clock Athens received quite
a severe shock from another earthquake.
People in houses were made aware of it by
the rattling of the window sashes and the
trembling of the floors. This shock was gen-
erally felt throughout the country, but it
caused no alarm. For the past three nights
there have been slight shocks of earthquake
felt, but they were not generally noticed un-
til Thursday night last, when two unusual
jars were felt. The first came between 10 and
11 o'clock and the other shortly after 4. The
last shock was sufficiently severe to wake up
persons who were asleep.

THE SHAKES RETURNED TO PRAYERS.
MARIETTA, Ga., October 22.—[Special.]—This
morning at about four o'clock a severe
shock of earthquake was felt here. It awak-
ened many people from their morning sleep
and shook things up considerably, though no ser-
ious damage was done. The negroes were very
much frightened, and a number got out of bed
and began praying. It was the most serious
shock that has been felt here since the 31st of
last August.

SEVERAL ROCKING MOVEMENTS.
GREENSBORO, Ga., October 22.—[Special.]—
Two earthquake shocks were felt here last
night, one at two o'clock and the other about
four. The last one was quite severe. At fifteen
minutes past two o'clock this afternoon another
shock of about five seconds duration was dis-
tinctly felt. Citizens who were at dinner at
the house moved and the dishes on the table
rattled.

THE MOVEMENT IN MACON.
MACON, October 22.—[Special.]—A slight
shock of earthquake was felt here at 1:10
this afternoon, and at 10 this morning a heavy
shock of nearly half a minute's duration. The
last was felt pretty generally all over the city.
Several parties claim to have felt a tremor
sufficient to rattle a window in a tall building
about 2 p. m. today.

SHAKEN UP IN JACKSON.
JACKSON, Ga., October 22.—[Special.]—Quite
a severe shock of earthquake was felt here
this morning at about half past 4 o'clock. The
shock was felt in nearly all the parts of the state,
at precisely fifteen minutes past five o'clock.

In some places it was severer than others.
The material damage done is not great, but the
injury to people's nerves is considerable. This
last manifestation of the earth's eccentricity
quakes some of the pot scientific theories
and causes people to lose faith in the
assurances of scientists that no further shocks
would be felt. Indeed, it has put people on
their guard again and has stimulated their
apprehension that another and a worse attack
of earthquake may come at any time.

The whole town was so scared worse than
after the attack at 2:45 o'clock. The earth's
action was ferocious, and buildings were as
playthings for the unseen monster. The dura-
tion of the shock was at least half a minute.
Tonight the inhabitants of this city will not
get much sleep, because everybody appears to
have a presentiment of an impending calamity.

FOUR SHAKES AT GREENVILLE.
GREENVILLE, S. C., October 22.—Four shocks
of earthquake were felt here today—very
light at 2:30 a. m.; one severe at 5:25 a. m.;
another, even more severe, at 3:51 p. m.; and
the last, almost imperceptible, at 6:30 p. m.

WINTERSVILLE, S. C., October 22.—[Special.]—
Earthquake shocks were quite generally felt
by the people here this morning, at five
o'clock, and this evening at 2:50.

WILMINGTON, N. C., October 22.—Two dis-
tinct shocks of earthquake were felt here this
morning at 5 o'clock. One was quite severe
and shook houses and awakened a great many
people. There was another distinct shock this
afternoon at a quarter to three o'clock. Build-
ings shaken very perceptibly. No damage
done.

REMOVED FROM THE HOUSES.
ASHEVILLE, N. C., October 22.—[Special.]—
A night earthquake occurred here this morn-
ing at about 5 o'clock. This afternoon at 2:50
o'clock a more severe shock was felt. Many people
rushed from their houses into the street, and
the impression is general that it was as heavy
as that of the 21st of August.

SHAKING AT RALEIGH.
RALEIGH, N. C., October 22.—Two distinct
earthquake shocks were felt here today about
5 a. m. and 3 p. m.

THE SHOCK AT CHARLOTTE.
CHARLOTTE, October 22.—About 5 o'clock
this morning people were awakened by a sharp
earthquake shock and at 2:47 this evening
another shock occurred, sufficiently severe to
make people run out into the streets. No
damage done, but the people are alarmed.

CONTERATION IN WASHINGTON.
WASHINGTON, October 22.—A slight earth-
quake shock was felt here at 2:50 this
afternoon. The tremor lasted but an instant,
but was sufficiently strong to "put" type on
compositing stones in the fourth story of the
"Star" office. The shock was so distinct on
the floor of the state, and navy
building that some of the clerks became
alarmed and ran out into the corridor. On
the lower floors of the building, however,
no one seems to have noticed any unusual
disturbance.

The shock was felt at the signal office build-
ing at 2:50 o'clock, and slight tremors were
noticed by a seismoscope for a period of
fifteen minutes. The people were not perceptible
to the shock in the room. A pointer, who was at
work on the cross on the new steps of Assen-
sion church, at a height of one hundred and
twenty feet from the ground, says the steps
began to sway to and fro a few minutes before

were awakened by it. On Pryor street several
families were so badly frightened that they
left their beds. On Marietta street the rock-
ing was distinct. On Washington street the
quake describes it as a waying from east to
west. Some, however, say that there were
three distinct oscillations, while others felt
but one.

The shock that occurred in the afternoon
was felt along Broad street, on Marietta
street and on Walton street and Luckie. On
Broad street persons in buildings felt the
shock. Several meetings were held to have
rattled. In Mr. Scarrott's restaurant on North
Broad the dining hall was full of people,
and when the shock came the people
rushed to the buildings outside and ap-
peared upon the tables raised. The people
were frightened and hurriedly left the build-
ing. At Mr. Sid Phelan's residence five vase
was knocked from a shelf and broken by
the shake. As far as can be ascertained no
buildings were damaged by either shock and
no one was hurt, but a great many ladies and
children were considerably frightened.

THE FLOOD SUFFERERS.
Relief Committees at Work—Galveston's
Contributions.
GALVESTON, October 22.—Measures for the
relief of the flood sufferers at Sabine Pass
and Johnson's bayou have in no wise abated
here. The ladies of Galveston have organi-
zed an independent committee for the purpose
of alleviating the condition of their unfor-
tunate sisters. Committees were appointed to
cavass every ward. The ladies report hav-
ing gathered 175 boxes of clothing and sup-
plies; also \$250 in cash donations. The cash
donations especially, got up and did not go
back to bed. At 2:30 o'clock this p. m. another
vibration, accompanied by a rumbling noise,
was felt. It was equally as severe as the first,
but much less duration. Many claim these
shocks were almost as severe as any that have
been experienced here excepting the great
shock of August 31st. They were felt every-
where in this section of the state, but no dam-
age is reported.

ATHENS SHOOK UP.
ATHENS, Ga., October 22.—[Special.]—This
afternoon at 2:50 o'clock Athens received quite
a severe shock from another earthquake.
People in houses were made aware of it by
the rattling of the window sashes and the
trembling of the floors. This shock was gen-
erally felt throughout the country, but it
caused no alarm. For the past three nights
there have been slight shocks of earthquake
felt, but they were not generally noticed un-
til Thursday night last, when two unusual
jars were felt. The first came between 10 and
11 o'clock and the other shortly after 4. The
last shock was sufficiently severe to wake up
persons who were asleep.

THE SHAKES RETURNED TO PRAYERS.
MARIETTA, Ga., October 22.—[Special.]—This
morning at about four o'clock a severe
shock of earthquake was felt here. It awak-
ened many people from their morning sleep
and shook things up considerably, though no ser-
ious damage was done. The negroes were very
much frightened, and a number got out of bed
and began praying. It was the most serious

to the shock in the room. A pointer, who was at
work on the cross on the new steps of Assen-
sion church, at a height of one hundred and
twenty feet from the ground, says the steps
began to sway to and fro a few minutes before

A BROTHER'S BLOOD.

THE PRICE PAID FOR A HORRIBLE
CRIME.

A Domestic Tragedy in Wyoming, in Which One
Brother Kills Another for Seduction His Wife
and Possession His Son—Other Crimes
of the Wicked World Disclosed.

CHEYENNE, Wyoming, October 22.—News
reached here last night from Carbon that John
S. Kerr, a stock grower, residing at Elk moun-
tain, had shot his younger brother, W. P. Kerr,
yesterday. The trouble originated from the
fact that while J. S. Kerr was away from home,
the brother, whom he had educated and nurtured,
took opportunity to seduce his wife and
run him home. His son, a boy 17 years old,
first told Mr. Kerr of this state of affairs in his
household. J. S. Kerr immediately deeded all
his property to his son and went out into the
world a penniless and heartbroken man. He
tried to kill his brother, but the facts were too
notorious to be entirely covered. Finally an
attempt was made to rob his son of his title to
the property deeded to him by the father and
the controversy brought the father back to the
scene.

In trying to settle the matter with the
brother, hot words ensued, and W. P. Kerr shot
at his brother, the ball case was effect in his leg.
J. S. Kerr, the injured husband, and his wife
were mortally wounded. W. P. Kerr, J. S. Kerr last
night represented Carbon county in the lower
house of the legislature, and was chosen
speaker of the house. He was a well known
and a very successful man, and his death was
a great loss to the community. The sympathy
of the people is with him in his trouble.

CYPER'S CRIME.
Convicted of Collecting Unlawful Fees and
Forsaking Magistrate's Name.
NASHVILLE, Tenn., October 22.—[Special.]—
Dr. W. E. Cyper, of DeKalb county, convicted
in the United States circuit court on the charge
of collecting unlawful fees from a pensioner,
was again convicted on the charge of forging
the names of magistrates to pension claims.
Cyper is a native of DeKalb county, where
his father was a magistrate. He was arrested
last night by the United States marshal, and
will be held in custody until he can be removed
to the penitentiary. He is a well known man
in the county, and his arrest has caused some
excitement. He is charged with having collected
unlawful fees from a pensioner, and with
forging the names of magistrates to pension
claims. He is charged with having collected
unlawful fees from a pensioner, and with
forging the names of magistrates to pension
claims. He is charged with having collected
unlawful fees from a pensioner, and with
forging the names of magistrates to pension
claims.

THE GARRISON ASLEEP.
River Thieves Attack Two United States
Forts.

BOSTON, October 22.—Two river thieves, last
night invaded United States forts Independence
and Winthrop. The men got ashore at
Fort Independence, entered by an open
casement, and stole several articles. The gar-
rison, which consisted of a single soldier, was
asleep at the time. The thieves then moved to
Fort Winthrop, which is defended by a solitary
cavalryman. He, however, was vigilant,
and succeeded in capturing both men, whom
he turned over to the police.

BOUND, GAGGED AND ROBBED.
Daring Deed of Safe Crackers in Vermont—
Sole of a New Hampshire Politician
Hanging.

VERMONTVILLE, Me., October 22.—Three
unknown men entered the office of the Amer-
ican Express company last evening, and seiz-
ing the agent, William Ball, bound and gagged
him, and forced him to open a safe. They then
stole an amount of money, and escaped. The
agent, who is a well known man in the com-
munity, was released this morning. The thieves
are being sought by the police.

COULDN'T STAND DEFEAT!
Suicide of a New Hampshire Politician
Hanging.

MANCHESTER, N. H., October 22.—Hon. J. B.
Clark, one of the most prominent citizens
of this city and state, committed suicide in a
barn today by hanging. He had been suffer-
ing from a long illness, and his death was
a great loss to the community. He was a
well known man in the community, and his
death has caused some excitement.

Another Attempt to Save the Anarchists.
CHICAGO, October 22.—One of the counsels
for the seven condemned anarchists, who were
executed last night, has been made known to
the public. The counsel is a well known man
in the community, and his death has caused
some excitement.

A Brutal Murder in Iowa.
CEDAR RAPIDS, Ia., October 22.—Two Bohemian
farmers and wives, living nine miles
from here, were murdered last night by a
Bohemian, who cut their heads open with an
axe. He was captured. No cause is given for
the deed.

Capture of Indians.
WASHINGTON, October 22.—The following
telegram from General Miles, dated Fort
Apache, Arizona, October 9th, has been trans-
mitted by General Howard to the war depart-
ment.

Failures of the Week.
NEW YORK, October 22.—Business failures
throughout the country in the last seven days,
reported to R. G. Dunn & Co., number for the
United States 12, and Canada 10, total 22, compared
with 19 last week, and 190 the week previous.
Casualties in the eastern and middle states are
light. While in the western, southern and Pacific
states, the number reported is about the average.

A Civil Rights Suit.
CHICAGO, October 22.—Rev. Simon P. Smith,
a colored Congregational pastor, of Knoxville,
who attended the Congregational National con-
ference, this city, began suit today for \$5,000
damages against a restaurant keeper, and his
head waiter, James Hughes, because they refused
to allow Smith to take a meal in his restaurant
on account of his color.

Arctic Explorers.
SAN FRANCISCO, October 22.—The Arctic
exploration expedition, under command of Lieuten-
ant Stedden, arrived last night from Oualak, on
the United States steamer Bear.

The Prince and the Millionaire.
BUFFALO, October 22.—Prince Victor Na-
polson, accompanied by John W. Macfar, the
millionaire, arrived this morning from the west.
They went to Niagara falls.

THE COFFERHEADS' CONSPIRACY.

A Sensational Story to be Published in a
Book of next week.

LOUISVILLE, October 22.—The Times pub-
lishes an interesting column, concerning the
northwestern conspiracy and the attempt of
the confederate government during the war
to release southern prisoners in the north.
The importance of the movement has never
yet been fully understood, nor have papers of
the north comprehended the relations that
existed between the commissioners and the
various cooped-up organizations of the north-
west, the principal one of which was the
"Sons of Liberty."

The origin of this movement is traced to the
raid of Morgan through Ohio. This raid
developed the fact that there was throughout
the northwest great dissatisfaction with the
government at Washington, and this led to
the cooped-up leaders to take advantage of the
disturbed situation and, if possible, secure the
co-operation of these dissatisfied classes. The
papers now to be published in a southern
magazine will tell the story of the movement
in the north. Among the much curi-
ous information these documents will furnish
is the fact that even Mr. Stanton
will be at one time so despondent that he will
be of the war that he expressed serious ap-
prehensions as to the personal safety of the
president and his official associates, arising
from the cooped-up organizations of the north.
The extent of the opposition to the government
at Washington, among all classes, and the
fact that the movement was not a mere
conspiracy, but a real movement, will be
shown as well as shown in these papers, and
they may have a peculiar and personal inter-
est for a number of prominent politicians.
There are thousands of men in Ohio, Indiana
and Illinois, who will be deeply affected polit-
ically by the revelations.

The story involves a scheme to capture the
only gunboats on the lakes, attack Chicago,<

Weak Kidneys! Diseased Kidneys! Inflamed Kidneys!

INDICATIONS.
Come back, weak, back, sleep
refreshing, pain in the side, short
breath, easily irritated, frequent
and painful passing of urine,
aching in the ears, eyes sunken,
pale, pallid, gloomy and despondent,
nervous and fretful.

CAUSE.
Inability of the kidneys to
properly perform the duty of fil-
tering and separating the waste and
poisonous matter produced by the
destruction of tissue, which is
constantly going on in the system.

ONLY SURE CURE.
BROWN'S IRON BITTERS.
Rheumatism, Dropsy, Diabetes,
Gravel, Inflammation of the
Bladder, Bright's Disease.

Does this not cause you to halt?
To examine your own condition
and discover if you are not ne-
glecting indications which point
straight to a diseased condition
of your kidneys? A poisoned
condition of the blood, accom-
panying the inability of weak kid-
neys to separate and throw off the
poisonous elements can be cured
by the careful and persistent use of
BROWN'S IRON BITTERS.

The action of **Brown's Iron Bit-
ters** is through the blood and the
stomach, directly upon the disor-
ganized filtering processes of the
kidneys. Remember that the
nerves of the kidneys are directly
connected with the whole nervous
system and the brain, and most
direful results will accrue from
continued neglect of diseases of
the kidneys. Nervous prostration
and disease of the brain are sure
to follow such neglect. You cannot
be too careful of this remarkable
and important organ of the
human system.

Use **Brown's Iron Bitters**
at the slightest hint your kidneys
give you that you have violated
some law of health. The tonic
and alternative properties of this
pure vegetable medicine make it
the only remedy it is safe for
you to use when your kidneys
are out of order. Take
BROWN'S IRON BITTERS
and you will no longer be de-
pendent and fretful. Your face
will resume its healthy appearance,
your eyes their accustomed bril-
liancy, pains in the back and sides
will disappear, your sleep will be-
come more restful and refreshing,
and your *Oh! my back! Oh! my
kidneys!* will give place to expres-
sions of joy that you have found
the cure for all kidney diseases.

Don't be deceived by imitations.
Ask for the genuine **Brown's Iron
Bitters** and take no other. Trade-
mark and crossed red lines on the
wrapper of every bottle. Price
only one dollar. Prepared by
Brown Chemical Co., Balt., Md.

THE SOUTHERN STATES.

**POINTS OF INTEREST FROM ALL
PARTS OF THE STATE.**
The Approaching State Fair at Columbia—Farmers
Directly Concerned—The Fair at Columbia, South
Carolina, a Young Lady Has Died—
Broken by an Accident—See, See.

SOUTH CAROLINA.
Senator Wade Hampton is visiting his family
in Columbia.
The South Carolina college now contains
about 175 students.
The Columbia graded schools now contain
upward of 2,500 pupils.
A large number of robberies have been re-
cently committed in Marion county.
Dr. Peter Shad, the venerable Episcopal
pastor, is lying at the point of death at his home.

The Columbia street railway is doing a big
business. In one day the cars transported be-
tween 4,000 and 5,000 passengers.
The Greenville female college, President
Travis, opened last Monday with an attend-
ance of two hundred young ladies.
Senator M. C. Butler, who has been in Eu-
rope since the adjournment of congress, is ex-
pected to reach home in a few days.

There will be a grand shooting tournament
at the approaching state fair. Georgia sports-
men who desire to compete in the various
particulars Dr. Walter G. Fisher, of this place.
Mr. Charles T. Mason, the inventor of the
cotton harrow, a description of which was
published in last week's Constitution, has de-
cided to place one of his machines on exhibi-
tion at the Georgia state fair in Macon. He
will also show several of his guns, which are
scarcely less wonderful in their action har-
vester. These machines will also be exhibited
at the Alabama state fair.

The approaching state fair will attract to
Columbia many thousands of visitors. A strong
effort is now being made by the officers of the
South Carolina agricultural and mechanical
society to induce President Cleveland to visit
Columbia fair week. Senator Hampton and
Governor Thompson have conferred with the
president on the subject and he is expected
to arrive in the city in a few days.
The fair will be a grand success, and the
people of the state will be well repaid for
the trouble and expense of attending it.

OUR STATE STREAMS.

**Engineer's Report on Their Improvement—
The Appropriations.**
WASHINGTON, October 22.—[Special.]—The
chief of engineers has prepared the fol-
lowing annual report on the improvement of Geor-
gia rivers, which will be submitted to congress
at the next session:

OCONEE RIVER.
The plan of improvement contemplates the
removal of the obstructions from the channel
and cutting through rock shoals so as to obtain
a navigable channel sixty feet in width and
four feet in depth at low water from Macon to
the Oconee river. The expenditure of \$57,000
to up to the present time, under the old plan
of improvement, has resulted in securing a na-
vigation of the river at a stage from two to three
feet lower than was practicable before the com-
mencement of the improvement.

The work done during the past fiscal year
was as follows:
Obstructions removed.....\$55
Cutting through rock shoals.....15
Sums in bank cut level.....\$11
Locks and dams removed from river.....\$11
Before work was resumed it will be nec-
essary to provide a working plant, and it is re-
commended that there be a steam tug, boat of
medium size, costing about \$10,000, to be used in
common for the Oconee and Coosa rivers.
An appropriation of \$35,000 is asked.

COOSA RIVER.
The original estimate of cost of this im-
provement is \$100,000. To this must be added
the cost of moving obstructions brought into the
river channel by freshets since the date of the
estimate. The river has, generally, a
navigable channel of from 100 to 150 feet in
width and 4 to 6 feet in depth. The improve-
ment will have the effect of securing a naviga-
tion of the river at a stage from two to three
feet lower than was practicable before the com-
mencement of the improvement. An appropria-
tion of \$25,000 is asked for the next fiscal year.

FLINT RIVER.
The expenditure up to the present time of
\$84,918.75 has resulted in securing a fair na-
vigation of the river from the mouth of the
Tusculum to the mouth of the Flint. The ex-
penditure of \$10,000 for the improvement of the
channel between Montezuma and Warlick, for-
merly above Albany.

The plan of improvement of the Flint river
contemplates the removal of the obstructions
from the channel and cutting through rock shoals
so as to obtain a navigable channel sixty feet in
width and four feet in depth at low water from
Macon to the Flint river. The expenditure of
\$57,000 to up to the present time, under the old
plan of improvement, has resulted in securing a
navigation of the river at a stage from two to
three feet lower than was practicable before the
commencement of the improvement.

The work done during the past fiscal year
was as follows:
Obstructions removed.....\$55
Cutting through rock shoals.....15
Sums in bank cut level.....\$11
Locks and dams removed from river.....\$11
Before work was resumed it will be nec-
essary to provide a working plant, and it is re-
commended that there be a steam tug, boat of
medium size, costing about \$10,000, to be used in
common for the Oconee and Coosa rivers.
An appropriation of \$35,000 is asked.

COOSA RIVER.
The original estimate of cost of this im-
provement is \$100,000. To this must be added
the cost of moving obstructions brought into the
river channel by freshets since the date of the
estimate. The river has, generally, a
navigable channel of from 100 to 150 feet in
width and 4 to 6 feet in depth. The improve-
ment will have the effect of securing a naviga-
tion of the river at a stage from two to three
feet lower than was practicable before the com-
mencement of the improvement. An appropria-
tion of \$25,000 is asked for the next fiscal year.

FLINT RIVER.
The expenditure up to the present time of
\$84,918.75 has resulted in securing a fair na-
vigation of the river from the mouth of the
Tusculum to the mouth of the Flint. The ex-
penditure of \$10,000 for the improvement of the
channel between Montezuma and Warlick, for-
merly above Albany.

The plan of improvement of the Flint river
contemplates the removal of the obstructions
from the channel and cutting through rock shoals
so as to obtain a navigable channel sixty feet in
width and four feet in depth at low water from
Macon to the Flint river. The expenditure of
\$57,000 to up to the present time, under the old
plan of improvement, has resulted in securing a
navigation of the river at a stage from two to
three feet lower than was practicable before the
commencement of the improvement.

The work done during the past fiscal year
was as follows:
Obstructions removed.....\$55
Cutting through rock shoals.....15
Sums in bank cut level.....\$11
Locks and dams removed from river.....\$11
Before work was resumed it will be nec-
essary to provide a working plant, and it is re-
commended that there be a steam tug, boat of
medium size, costing about \$10,000, to be used in
common for the Oconee and Coosa rivers.
An appropriation of \$35,000 is asked.

COOSA RIVER.
The original estimate of cost of this im-
provement is \$100,000. To this must be added
the cost of moving obstructions brought into the
river channel by freshets since the date of the
estimate. The river has, generally, a
navigable channel of from 100 to 150 feet in
width and 4 to 6 feet in depth. The improve-
ment will have the effect of securing a naviga-
tion of the river at a stage from two to three
feet lower than was practicable before the com-
mencement of the improvement. An appropria-
tion of \$25,000 is asked for the next fiscal year.

FLINT RIVER.
The expenditure up to the present time of
\$84,918.75 has resulted in securing a fair na-
vigation of the river from the mouth of the
Tusculum to the mouth of the Flint. The ex-
penditure of \$10,000 for the improvement of the
channel between Montezuma and Warlick, for-
merly above Albany.

The plan of improvement of the Flint river
contemplates the removal of the obstructions
from the channel and cutting through rock shoals
so as to obtain a navigable channel sixty feet in
width and four feet in depth at low water from
Macon to the Flint river. The expenditure of
\$57,000 to up to the present time, under the old
plan of improvement, has resulted in securing a
navigation of the river at a stage from two to
three feet lower than was practicable before the
commencement of the improvement.

The work done during the past fiscal year
was as follows:
Obstructions removed.....\$55
Cutting through rock shoals.....15

Locks and dams removed from river.....\$11
Before work was resumed it will be nec-
essary to provide a working plant, and it is re-
commended that there be a steam tug, boat of
medium size, costing about \$10,000, to be used in
common for the Oconee and Coosa rivers.
An appropriation of \$35,000 is asked.

COOSA RIVER.
The original estimate of cost of this im-
provement is \$100,000. To this must be added
the cost of moving obstructions brought into the
river channel by freshets since the date of the
estimate. The river has, generally, a
navigable channel of from 100 to 150 feet in
width and 4 to 6 feet in depth. The improve-
ment will have the effect of securing a naviga-
tion of the river at a stage from two to three
feet lower than was practicable before the com-
mencement of the improvement. An appropria-
tion of \$25,000 is asked for the next fiscal year.

FLINT RIVER.
The expenditure up to the present time of
\$84,918.75 has resulted in securing a fair na-
vigation of the river from the mouth of the
Tusculum to the mouth of the Flint. The ex-
penditure of \$10,000 for the improvement of the
channel between Montezuma and Warlick, for-
merly above Albany.

The plan of improvement of the Flint river
contemplates the removal of the obstructions
from the channel and cutting through rock shoals
so as to obtain a navigable channel sixty feet in
width and four feet in depth at low water from
Macon to the Flint river. The expenditure of
\$57,000 to up to the present time, under the old
plan of improvement, has resulted in securing a
navigation of the river at a stage from two to
three feet lower than was practicable before the
commencement of the improvement.

The work done during the past fiscal year
was as follows:
Obstructions removed.....\$55
Cutting through rock shoals.....15
Sums in bank cut level.....\$11
Locks and dams removed from river.....\$11
Before work was resumed it will be nec-
essary to provide a working plant, and it is re-
commended that there be a steam tug, boat of
medium size, costing about \$10,000, to be used in
common for the Oconee and Coosa rivers.
An appropriation of \$35,000 is asked.

COOSA RIVER.
The original estimate of cost of this im-
provement is \$100,000. To this must be added
the cost of moving obstructions brought into the
river channel by freshets since the date of the
estimate. The river has, generally, a
navigable channel of from 100 to 150 feet in
width and 4 to 6 feet in depth. The improve-
ment will have the effect of securing a naviga-
tion of the river at a stage from two to three
feet lower than was practicable before the com-
mencement of the improvement. An appropria-
tion of \$25,000 is asked for the next fiscal year.
